SCHELLTER™

ADVANCED BUILDING SCIENCE

SMART TECHNOLOGY DEVELOPED BY SCHELL BROTHERS TO PROVIDE YOU WITH THE ULTIMATE HIGH PERFORMANCE HOME.

Schellter™ Advanced Building Science was developed as part of our continual commitment to provide our homeowners with an exceptional home worthy of the Schell Brothers name and reputation. Schellter is comprised of three components: Enerwize™, SanctuAIR™, 4Tress™, and HomeIQ™. Our goal was to use a scientific process to create a new type of home – a home that is extremely energy efficient (Enerwize), eliminates the health risks associated with poor indoor air quality (SanctuAIR), provides unparalleled durability, longevity, strength, and quality (4Tress) and offer the ease Smart living with everything at your fingertips (HomeIQ™).

BREATHE EASY WITH SANCTUAIR™.

Sleep better knowing that your home is protected by SanctuAIR™, the ultimate in healthy air quality. The high SanctuAIR™ standards exceed the requirements of the Environmental Protection Agency's Indoor AirPLUS® program, placing our homes in the top 10% in the nation for air quality. That's right, the air quality in your home will be better than 90% of the homes in the country! We use low VOC (Volatile Organic Compound) building products and MERV-13 air filters. A MERV-13 Filter will remove almost all of the harmful particles in the air.

RELAX IN A 4TRESS™ ENVIRONMENT THAT IS BUILT TO STAND THE TEST OF TIME.

A home built 4tress™ strong will last longer, require fewer repairs, and provide you with more time for the things you love. Advanced framing techniques that include 2 × 6 exterior walls*, engineered flooring systems, waterproofing techniques, and a five check leak prevention system place your home among the most durable in the nation. All 4tress™ homes meet stringent requirements for strength, durability, moisture resistance, and sound attenuation.

*Some garage exterior walls use 2x4.

YOUR HOME JUST GOT SMARTER.

Our HomelQ system ensures your family lives at home with ease and offers technology at your fingertips. Voice-activated commands allow you to ensure security, manage appliances and lighting, and access a variety of voice-activated apps right from your hub. Your Intellihome features an Alarm.com IQ Panel with a Z Wave Hub that ties all your devices together in one platform. It also fully integrates with your Alexa Command Center.

SAVE TIME, ENERGY AND MONEY WITH ENERWIZE™.

Enerwize™ sets a new standard for home energy efficiency by far surpassing the requirements and efficiency ratings of homes built to Energy Star specifications. While all Schell Brothers homes are also Energy Star certified, the addition of Enerwize™ features and technology yields homes that are approximately 50% more energy efficient than a typical Energy Star certified home. In addition, Enerwize™ homes are over 100% more energy efficient than the average existing home, which means an Enerwize™ home will have energy costs that are less than half those of an equivalently sized existing home. By buying an Enerwize™ home, you're not only saving money, you're helping our environment by reducing the carbon footprint of your home.

The EnerWize™ brand is synonymous with comfort, savings, and peace of mind. Features such as High Performance air conditioners, variable speed blowers, tankless water heaters, specially sealed ducts, and proprietary techniques combine to provide an average HERS (Home Energy Rating System) score of 49. That means you can expect a utility bill that will be about 51% less than a typical existing home.

HERS SCALE
The Home Energy Rating System (HERS) measures a home's energy efficiency.

Schell Brothers averages 49 on the HERS Scale, making them some of the most energy efficient homes in the country.

Included EXTERIOR FEATURES

THE ESTATES AT BRIDGEWATER

The Stonefield - Elevation B

**please note: example photo shows home on slab foundation. The Estates at Bridgewater offers a 4' crawl foundation as standard*

STRUCTURAL FRAMING

EXTERIOR WALLS

Exterior walls* are constructed utilizing Advanced Framing Techniques that include: 2" x 6" walls with studs spaced 24" on center, right sized insulated headers and wall corners/intersections that allow for full cavity insulation.

FLOOR SYSTEM

Constructed of engineered open-web floor trusses per plan. All sub-flooring has a 3/4" tongue and groove sub-floor.

ROOF SYSTEM

Engineered roof trusses with energy heels provide adequate space for extra insulation.

EXTERIOR FINISHES

SIDING

Crane American Dream™ siding adds so much warmth and character to your home. Nothing beats vinyl for sheer endurance since it requires far less maintenance than painted surfaces. Crane vinyl siding is included on the sides and rear of your home. The front of your home will have vinyl siding, with vinyl board and batten, and portsmouth shake accents per plan.

EXTERIOR TRIM

- 8" aluminum wrapped fascia
- 5 ½" lineals around all windows
- Friezeboard per floor plan

ROOFING

Laminated asphalt shingles have a legacy of beauty and protection. They will not only protect your most valuable asset, they'll also beautify your home for years to come with multiple colors that complement your exterior selections.

FOUNDATION

Conditioned 4' tall crawl space standard. Stone front foundations included per plan.

DRIVEWAY

Concrete.

FRONT PORCH

Synthetic decking (railings optional)

LANDSCAPING

Landscaping package includes full yard sod and irrigation with front shrubs/flowers, and mulch.

GARAGE DOORS

ROOFING

GARAGE DOORS

Garage door(s) manufactured by Overhead Door Company. Electric garage door opener with push button operation and remote control included.

OVERHEAD DOOR LIFTMASTER MYQ GATEWAY

Your HomeIQ features a Liftmaster myQ Gateway garage door which can be operated with voice or touch control from the kitchen Command Center. You can also operate the door from the Alexa app.

SLIDING DOORS

PlyGem®

FRONT DOOR

Masonite® is one of the world's leading manufacturers of interior doors and entry door systems. Throughout the company's 80 year history, Masonite® has maintained its focus on leading-edge innovation, and manufacturing excellence.

SMART FRONT DOOR LOCK

A keyless entry door lock will give you the freedom from keys and hiding them under the door mat. Remotely lock/unlock the door from anywhere you are and receive messages on who's entered the home. It also communicates directly to your alarm panel and command center.

VIDEO DOOR BELL

Your HomeIQ features an Alarm.com IQ Panel with a Z Wave Hub that ties all your devices together in one platform. It also fully integrates with your Alexa Command Center. Your home will come with a keyless entry system and a video doorbell included.

BOARD & BATTEN SHUTTER

MASONITE® FRONT DOOR AND KWIKSET BALBOA SERIES LEVER WITH BELLEVIEW HANDLE SET

WINDOWS

Your new home includes PlyGem High Performance single-hung windows that feature dual low-E coating with argon gas, and warm edge spacer technology. The overall U value (insulating value) is below .26 and SHGC (solar heat gain coefficient) is below .21 which exceeds the Energy Star requirements. Screens are included with each operable window.

MOLDED MAINTENANCE FREE SHUTTERS

The color is molded through the shutter for years of durability and maintenance-free beauty. See color packages for color selections.

Included INTERIOR FEATURES

THE ESTATES AT BRIDGEWATER

code to get
started*

CLEAN ENERGY USA

Clean Energy USA has installed over 1,700 solar panel systems since 2007, making it Delaware's premier provider. Solar energy's benefits include reducing or even eliminating your electric bill, protecting you from power companies' rising rates, and solar tax incentives to help you recoup much of your upfront investment quickly and reduce your tax bill (or increase your refund) at the end of the year. Visit **ceusa.com** for more information.
